Dear Sir:

RE: Engineering Week Sponsorship 2018

On October 15, 2018, the **38th Annual Hamilton-Halton Engineering Week Luncheon** will be held at the elegant Carmen's Banquet Centre in Hamilton. The luncheon is an entertaining and informative gathering that recognizes the value of engineering in the Hamilton-Halton community. With this year's theme, "Innovation: The Future is Now!", we are pleased to welcome **Mr. David Carter, Executive Director, Innovation Factory**, as our luncheon speaker. David is a Vice Chair, on the Board of Advisors for the Technology Centre in Digital Health at MEDIC and also an Advisory Board Member on the Canadian Digital Media Network. The Innovation Factory expects to focus on how autonomous vehicles will affect multi-modal transportation and the design of "smart cities". We look forward to hearing about his insights into autonomous vehicles and the influence they will have on society.

We invite you to join us in our celebration of local engineering. Ticket and sponsorship packages include:

| | | |
|------------------------|----------|---|
| CORPORATE: | \$200.00 | <i>Includes luncheon program sponsorship recognition and 2 luncheon tickets.</i> |
| CORPORATE PLUS: | \$600.00 | <i>Includes luncheon program sponsorship recognition and 10 luncheon tickets at a reserved table.</i> |

Individual tickets to the luncheon are available at **\$50.00** each. Sponsorship beyond the cost of the luncheon assists in subsidizing local engineering students to attend the luncheon and other related activities in the community that celebrate engineering throughout the year.

Cheques are to be made payable to **Engineering Week** and should be forwarded along with the enclosed form, no later than **October 8, 2018**, so that your organization's name can be included in our program. Please note that ticket prices include all applicable taxes.

Everyone in the community is welcome to attend what is always a most entertaining "first class" event.

Please also mark down the date for the **HHEW Engineering Gala**, which will be held on **March 2nd, 2019**, to coincide with National Engineering Month. The Gala will celebrate the Hamilton-Halton Engineering Projects of the Year. An application form for the 2019 **Project of the Year** Awards has been appended for your consideration.

Yours truly,

Engineering Week Co-ordinating Committee

Sandro Perruzza

HAMILTON-HALTON ENGINEERING WEEK 2018

TICKET ORDER FORM

Name of Organization: _____

Contact Name: _____

Phone Number: _____

Please check (✓) the appropriate box and enclose this form with your remittance.

- CORPORATE: \$200 sponsorship (Includes 2 tickets to the luncheon)
