

PAN Meeting with MPP Michael Harris (Kitchener-Conestoga)

On Thursday, August 13, 2015, PAN representative Andrew Bauer, P.Eng. and GLP representative Gabriel Tse, P.Eng. met with MPP Michael Harris (Kitchener-Conestoga).

Andrew and Gabriel began the constituency meeting with a discussion on energy, the cost of electricity in Ontario, and future plans to address the high cost of electricity. MPP Harris was very interested and knowledgeable about this topic since this is an issue of great concern to many of his constituents. Andrew shared several reports and presentations prepared by OSPE's Energy Task Force for MPP Harris' reference.

The second issue that was addressed was energy sources. Andrew and Gabriel touched on the topic of smart grids, energy storage, and global adjustment which affects how energy is produced, used, and priced in Ontario.

Thank you to MPP Harris for meeting with OSPE and thank you to Andrew and Gabriel for their continued dedication to the profession!
