

## PAN Meeting with MPP Steve Clark (Leeds-Grenville)

On Friday, April 1, 2016, PAN representative Ferdie Tozer, P.Eng. and GLP representative Ray Linseman, P.Eng., F.E.C. met with MPP Steve Clark (Leeds-Grenville).

The meeting provided Ferdie and Ray with the opportunity to distinguish between the role of Ontario's regulatory and advocacy bodies for the engineering profession. Having met with representatives from both OSPE and PEO at his constituency office and Queen's Park, MPP Clark is very familiar with both organizations.

**From left to right:** Ferdie Tozer, P.Eng. MPP Steve Clark (Leeds-Grenville), and GLP representative Ray Linseman, P.Eng., F.E.C.

Ferdie discussed 3 documents with MPP Clark: OSPE's 2016 pre-budget submission to the Minister of Finance; OSPE's report entitled *Engineering a Cleaner Economy*; and a presentation put together by OSPE's Energy Task Force entitled *A Smart Grid Electricity Price Plan*.

MPP Clark has participated in briefings at Queen's Park on carbon pricing options. He appreciated the discussion points raised in OSPE's *Engineering a Cleaner Economy* report. MPP Clark noted the report would be a useful resource when this topic is discussed within his own party caucus.

Ray also shared with MPP Clark activities that PEO's Thousand Islands Chapter put together for National Engineering Month (NEM). NEM is Canada's biggest celebration of engineering, with over 500 events and activities taking place across the country during the month of March.

Thank you to MPP Clark for meeting with OSPE, and thank you to Ferdie and Ray for their continued dedication to the profession!
